

ESCUELA AGRICOLA PANAMERICANA  
TEGUCIGALPA HONDURAS

NEWSLETTER - August 1959. Again, our examining period is approaching and we ask our friends to inform all high school graduates, or students in their last year of high school of the competitive examinations which will be given in 50 towns this year by our traveling professors. Please tell your friends that while the competition for our scholarships has become extremely intense, the examinations take only 120 minutes of their time--and if they win one, well, its even better than the lottery!
