ZAMOCITAS '94

**Recopilado por Keith L. Andrews
Director, Zamorano**

ESTIMADOS GRADUANDOS:

Zamorano provee una educación técnica integral de primera categoría, pero no les puede enseñar todo en solamente tres años. El aprendizaje no se limita a los años escolares; sigue durante toda su vida.

Este folleto, incompleto y sujeto a cambios posteriores, es mi modesto intento para reafirmar la importancia de algunos de los elementos claves de la filosofía zamorana y de su *modus operandi*, utilizando palabras de otras personas. Zamocitas '94 se concentra en las actividades profesionales y cívicas y en los aspectos psicológicos de la práctica del agrónomo zamorano. Muchos temas esenciales para una vida balanceada se han dejado por fuera debido a que Zamorano no promulga ninguna idea política o espiritual.

Animamos a nuestros graduandos a estudiar más, a pensar en forma amplia, a leer mucho, a mejorar su inglés que es el idioma internacional de la ciencia, tecnología y comercio, y a participar en diversas actividades que amplíen sus horizontes.

Lean este folleto críticamente. Consúltenlo, y a medida que vayan adquiriendo experiencia, añádanle las citas que consideren conveniente y háganmelas llegar.

Les deseo a cada uno de ustedes los mejores éxitos en su vida profesional y personal. Espero sinceramente que siempre mantengan el nombre de su *Alma Mater* en alto.

It is not the critic who counts, not the man who points out how the strong man stumbled, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena; whose face is marred by dust and sweat and blood; who strives violently; who errs and comes short again and again; who knows the great enthusiasms; the great devotions; who spends himself in a worthy cause; who, at the best, knows in the end the triumphs of high achievements; and who, at the worst, if he fails, at least fails while daring greatly.

Professional education in America is putting progressively more emphasis on the manipulation of symbols to the exclusion of other sorts of skills- how to collaborate with others, to work in teams, to speak foreign languages, to solve concrete problems- which are more relevant to the new competitive environment.
